

2nd WRITING SCIENTIFIC WORKSHOP 2008

School of Medicine has organized their 2nd Writing Scientific Workshop on 16th - 17th November at Perkasa Hotel, Tenom. The organizer as well as the facilitators, Prof Dr Osman Ali, AP Dr Urban D'Souza and AP Dr K. Dilip Murthy had invited those lecturers who had not published their research through writings. There were 8 participants and they were very dedicated all through the workshop. At the end of the workshop we managed to extract 8 full articles for our journal, following BJMS guidelines. As we all know that publication is one of the key performance indicators in the university. So, we urge all the lectures and readers to start publishing your work to community.
