

## CONGRATULATION

Kamaruzaman (seventh left) and Dr Rosnah Ismail (sixth left) with the winning UMS researchers.

# Commercialise innovations to benefit society: UMS VC

### Elizabeth Majaham

KOTA KINABALU: Universiti Malaysia Sabah (UMS) Vice Chancellor Datuk Prof Dr Kamaruzaman Ampon wants the university's academia to commercialise their innovations to benefit society.

He stressed this Tuesday while acknowledging

to achieve excellence. There are still many more years ahead of us and the university is just beginning to build up its human resources. You are our future, you are going to provide the next leadership."

He pledged that the administration would provide all necessary assistance and funding to build such excellence.

"One point that needs your immediate attention winning is one thing, but we want to see it being translated into something tangible so society can benefit" quoted by our Vice Chancellor, Yang Berbahagia Kol. Prof Dr Kamaruzaman during the Malaysia Technology Expo (MTE) 2009 held at Putra World Trade Centre on Feb 19-21. UMS was awarded gold, silver and seven bronze. Yang Berbahagia Datuk was pleased and said that UMS is on the right track towards the achieving its aspiration as a research university. School of Medicine would like to congratulate all the winners and especially to AP Dr Rajendra Choubey in participating the above event and was awarded bronze on his project "Virtual Pathology Museum".

Well done!!!
