POSTGRADUATE SEMINAR,

FACULTY SCIENCE AND
NATURAL RESOURCES

19-20 May 2015

Seminar Room Science Complex, FSSA

Article by Dr. Fauziah Sulaiman

Postgraduate Seminar 2015 Faculty of Science and Natural Resources was held on the 19th and 20th May 2015 organised by the Postgraduate Unit. A total of 42 papers presented by postgraduate students in the seminar. Dr. Fauziah Sulaiman as the Faculty Postgraduate Co-ordinator mentioned in her speech during the official ceremony, the main objective of the Seminar is to expose students with the academicians’s environment where it’s necessary for them to share and expose their research to public by presenting in seminar like this. This is important as it will train students to be more competence and ready to face challenging world after graduating. Seminar like this might improve their soft skill such as communicating well in their presentation and they should be able to present their research to other people as well. As for lecturers and experts, they would see this as the main platform for them to give constructive feedback to students’ research. Additionally, newly registered students are compulsory to present their proposal before proceed in the next semester. Programmes involve were Physics with Electronic, Geology, Environmental Science, Mathematics with Economics, Computer Graphic with Mathematics, Industrial Chemistry, Biotechnology and Forestry. The seminar was officiated by the Dean of the Faculty, Prof. Dr. Baba Musta and witnessed by The Deputy Dean of Research and Innovation Dr. Rosmalina Abd. Rashid, lecturers and fellow students as well.
