

Technical Visit to High Voltage Laboratory, KYUTECH

Artikel oleh: Mohamad Zul Hilmey bin Makmud

Kyushu Institute of Technology (KYUTECH) is located in the northern part of Kyushu, with 3 well-positioned campuses in Fukuoka Prefecture. The main campus is the School of Engineering in Tobata, Kitakyushu City, which is the original campus and has contributed to Japan industry for 100 years. A technical visit conducted by Mohamad Zul Hilmey bin Makmud at High Voltage Laboratory in the Department of Electric and Electronics of KYUTECH on 4 - 10 May 2012. Besides presenting the proposal of PhD study in Kyutech under the supervision of Prof. Dr. Eng. Masayuki Hikita, the author also visited the lab as well as touring to the current studies and latest researches conducted there.

One of the partial discharges monitoring system for liquid insulations in the HV Laboratory.
