When disabilities not a hindrance

Shereli Jeffrey
KOTA BHARU: Born with only two fully functional hands, a right thumb and a left pinky – no hindrance for Moham-

In early March, Mohammad was enrolled into Universiti Malaysia Sabah for the Bachelor of Business with Honour.

“My family told me that if you are dis-

ability to go to university, then go for it,” said the 20-year-old Bajau from Kg. Ulu Sipitang, may 2017-2018 session.

“My family told me that you can be a labourer and a mother who is a full time housewife, doing house chores before school visit when I was 15 years old, among 16 special undergraduate, entered the University in September 2017.

“Many of the people with disabilities are educated and 80% of them are housewives, out of the 306 new international students, some are able to fulfill this requirement, but they will have a fruitful time studying in UMS because we think the implementation of the iCGPA is easy to start our cooperation at the LOI level,” she said.

Meanwhile, she added that the Memo-

The Bachelor in Social Science and Com-

The framework, she said. “We acknowledge and realise, generating human capital according to our way of thinking, will be the best product of UMS which will surely be the pride of the family, the people and the country, especially Sabah.”

“Keep away from the negative cultures that leads to division, appreciate the inde-

What are the challenges and efforts to be implemented but I believe UMS will be able to do it well. We know that UMS students are always with us in making the national education agenda a success, to generate quality capital so that we will become the heirs for the continuity of the nation’s progress and prosperity,” she said.

As such, we have been working to en-

Dr Duy anunciating the UMS iCGPA Manual System with UMS Vice-Chancellor Prof. Dr. D. Kamarudin D. Mudin and UMS Deputy Vice-Chancellor (Students Affairs and Alumni) Prof. Dr. Ismail Ali look on.

New students doing the ‘soaring upwards’ gesture.
