WEDNESDAY, 13 APRIL – The Student Welfare Committee (JAKMAS) Corporate Relations Exco Tun Mustapha Residential College (KKTM) recently organised a ICT Literacy and Organisation Management Workshop.

The Workshop held at Dewan Mini Karisma Tun Mustapha College involved 100 participants comprising those from the Secretariat of the KKTM Students Committee.

The workshop aimed at giving students the opportunity to learn the basics in organisational management and the use of ICT.

The programme was also seen to improve the quality of students with the basics of ICT use and expose them to organisation management including writing of paperwork for a programme.

The workshop was conducted by invited guests, Jakaria Dasan and Oscar Gordon Wong and was officiated by the Principal of KKTM, Dr. Mohamad Nizam Nazaruddin.

According to him, this programme would benefit students as they were to excel not only in academics but also to learn soft skills while studying at UMS.

“Such programme will continue to be organised in future so that students could apply what they have learned and acquired in their daily life and after graduating,” he said.

He also proposed that a publicity unit be set up in line with the aim of the workshop, as a way of applying what they had learned in the workshop. - (fl)
