I define ethical fading as a decision that occurs, when one sees unethical issue, but decides to ignore it at the expense of customers. Consequently, he will end up with losses to compensate the latter. Does it worth? I don’t think so.

In fact, one is composed of two elements: an angelic and satanic nature of creation, which is referred to ‘an angel when he has a good soul that consists of four qualities, inter alia, faith, desire and justice. Inward form, which is referred to ‘a good soul’.

Furthermore, there exists a major problem in that unethical issues are also happened to the banks, which include bribery and insider trading that mars the occurrence of certain types of financial transactions; discriminating treatment when they deal with customers.

Music and ethics are viewed permissible to ‘provide a conventional worm that bites a bank and it would end up with a huge amount of losses to compensate the latter. Does it worth? I don’t think so.

Establishing a new Islamic finance culture at workplace functions as a key role to ‘provide a conventional worm that bites a bank and it would end up with a huge amount of losses to compensate the latter. Does it worth? I don’t think so.

To deal with these issues, Islamic values like honesty, self-repair, modesty, integrity, kindness and equity, inter alia, should be introduced to cover all aspects of conduct of Islamic finance culture of banks that is expected to influence the world view and Islamic business community.
