

## **Preliminary list of mosses from Meliau Range, Ulu Tungud Forest Reserve, Sabah**

### **Abstrak**

A total of 70 species and five varieties of mosses in 31 genera and 18 families were recorded from the Meliau Range, Ulu Tungud Forest Reserve. Six species are new records for Sabah: *Cladopodanthus eterophyllus*, *Mitthyridium wallisii*, *Chaetomitrium poecilophyllum*, *Acroporium downii*, *Acroporium strepsiphyllum* var *strepsiplyllum* and *Papillidiopsis bruchii*. The largest family in terms of number of collected species was *Sematophyllaceae* followed by *Calymperaceae* and *Leucobryaceae*
