

**A preliminary checklist of beetles from Ginseng Camp, Maliau Basin, Sabah, Malaysia, as assessed through light-trapping**

**Abstract**

A total of 61 species of beetles representing 17 families and 47 genera were collected from Ginseng Camp, Maliau Basin, Sabah using light trapping method. The Scarabaeidae, Cerambycidae, Lucanidae and Elateridae form 70% of the total collection. Some of the species collected are new records for Maliau Basin.
