ACKNOWLEDGEMENTS

This thesis of rural tourism development and poverty alleviation: Sabaragamuwa Province in Sri Lanka represents not only my work at the keyboard; it is a benchmark in three years full time PhD journey at Universiti Malaysia Sabah (UMS). My supervisors' amazing knowledge and experiences directly contributed to the completion of this thesis. I want to sincerely and graciously express my thanks to so many distinguished people that were involved directly or indirectly to the success of my PhD.

First of all, I wish to express my deepest gratitude to both of my supervisors. They have provided enough guidance and assistance towards my research since early 2011. Moreover they dedicated their valuable time for me. I am most grateful to have learned and gained so much from my supervisors, Dr. Janice L. H. Nga and Associate Professor Dr. Jennifer K. L. Chan. Their knowledge and consistent commitment in guiding me through this PhD process are much appreciated.

Many thanks to Professor Sunanda Madduma Bandara, the Vice Chancellor, University of Kelaniya; Professor A. H. M. Abayarathna, the Dean, Faculty of Social Sciences; Professor Upali Hettiarachchi, Senior Lecturer, Department of Economics; Dr. W. M. Semasinghe, Senior Lecturer, Department of Economics; Mr. Osantha Thalpawila, Senior Lecturer, Department of Economics; Ms. Dilma Koggalage, Senior Lecturer, Department of History. I would like to thank Dr Chaminda, Ms. Seetha, Ms. Prasansa, Mr. Buddika, Mr. Namal, Ms. Sandya, Mr. Mudalige, Mr. Nilantha, Mr. Chathuranga, Ms. Chamila, Ms. Sajee, Mr. Dimuth and all academic staffs of the Faculty of Social Sciences. Many Thanks to Ms. Shirani, Ms. Ruwani, Mr. Stanly and all supporting staffs of the University of Kelaniya.

I would like to thank the proposal defense examination committee and previva examination committee of the Faculty of Business, Economics and Accountancy. The committees guided me through their significant commitment. Many thanks to Dr. Caroline Geetha A/P Arokidasan, Chairperson of proposal defense examination committee; Dr. Noor Fzlinda Febeil, Chairperson of pre-viva examination committee; Associate Professor Dr.Remali Yousoff, examiner of proposal defense examination committee and pre-viva examination committee and Deputy Dean; Dr. Awangku Hassanal Bahar Pengiran Bagul, examiner of proposal defense examination committee and pre-viva examination committee; Dr. James Mohd Alin, examiner of proposal defense examination committee.

I would like to thank the Universiti Malaysia Sabah and the Faculty of Business, Economics and Accountancy. Many thanks to Associate Professor Dr. Hjh. Arsiah Bahron, the Dean; Dr. Mohd Rahimie Abd Karim, the Deputy Dean, Student Affairs and Postgraduate; Dr. Raman Noordin, Former Deputy Dean, Student Affairs and all academic staffs of Faculty of Business Economics and Accountancy. I would like to thank Mr. Ruby Salam Abd Latip; Ms. Siti Nur Fatihah J Abdullah and all supporting staffs of the Faculty of Business, Economics and Accountancy. I would like to thank all academics and supporting staffs of the Center of Post Graduate Studies (CPS), UMS. Many thanks to Professor Datin Dr. Mariam Abd. Latip, the Dean of the CPS. I would like to thank Mr. Faddili bin Kasin.

I wish to express my gratitude to Associate Professor Datuk Dr. Hj. Kasim B. Hj. Md. Mansur and the staff for providing me KF hostel facilities during my terms as PhD student.

I would like to thank the staff of international office, UMS for their kind administrative support.

I would like to thank the organizing and scientific committees of the conferences, editors of the journals and the reviewers. The conferences and journals provided good platform for me to discuss new findings and absorb new researches regarding rural tourism. The reviewers guided me through their constructive comments. Many thanks to the organizing and scientific committees of 3rd RCTR, Universiti Sains Malaysia; International Conference on Rural Tourism, University of Aveiro, Portugal and International Conference of Social Sciences, University of Kelaniya, Sri Lanka. I wish to express my thanks to Dr. Ku Azam Tuan Lonik, Head of scientific committee and editor; Dr. Shardy Abdullah, Chair of the session; Dr. Gary Genosko, Chief Editor of International Journal of Education and Research (IJER), Australia and Associate Professor Belinda V. de Castro, Managing Editor of Asian Journal of Tourism and Hospitality Research (AJTHR), Philippine.

I would like to thank Ken, Saizal, Charial, Gu, Umar and all my friends of Faculty of Business Economics and Accountancy for sharing their knowledge, culture, language and friendship with me.

I must also thank all the kind support throughout my Malaysian PhD journey especially to those who encouraged me in my study and research process directly and indirectly. In particular, I must thank all staffs of NCAS in Sri Lanka. I would like to record my greatest appreciation to all the interviewees and respondents that had contributed their significant ideas in the study. Thank you for showing interest and the willingness to advice in my study. Without that this study is not possible to be completed.

Last but not least, I would like to express my deepest appreciation to my family and my friends for their support and encouraging words so that made me persistent in pursuing my study. Many thanks to my little daughter Akashi and my wife Janaki.

ABSTRACT

This study examined rural tourism development and poverty alleviation: Sabaragamuwa province in Sri Lanka. It employed mixed method approach. Secondary data were gathered from reputable institutions including Sri Lanka Tourism Development Authority, Central Bank of Sri Lanka, Department of Census and Statistics in Sri Lanka since 1977. Primary data were collected from field survey of Sabaragamuwa province in Sri Lanka using observations, questionnaires and interviews. Primary data represented gualitative and guantitative. Simultaneous and sequential mixing methods were used to integrate both types of data. Based on the cumulative and cyclical inter-dependence theory and literature review, dependent and independent variables were recognized. In that, six hypotheses were tested. The study was designed on a research problem reviewing two main postulations that (1) prevalence of poverty can be alleviated via rural tourism development in Sri Lanka and; (2) rural tourism can be developed in Sri Lanka in its existing tourism system. In that, the study scrutinized the existing relationship between tourism development and poverty alleviation, key factors, existing obstacles and specific determinates regarding rural tourism development and poverty alleviation in Sri Lanka as reflected in its specific objectives and subresearch questions. The study found two main reasons for lack of correlation between rural tourism development and poverty alleviation in Sabaragamuwa, Sri Lanka. They are (1) shortage of available rural resources utilisation and (2) lack of rural community participation. It is also found that, seasonality, war effects, barriers, lack of combing programme had caused above mentioned relationship. The study concluded that existing tourism system in Sri Lanka links with a deficiency of community based approach (DCBA). Also, the study found that there is a significant relationship between community and assets. It means that lack of community participation had resulted in the lack of resources utilisation. The study opined that ABCD model makes a useful path between rural tourism development poverty alleviation in Sri Lanka. The findings, conclusions and suggestions exhort policy makers, researchers and community to make a platform for the advocacy of rural tourism as a viable instrument of poverty alleviation in Sri Lanka. It is important to highlight the role of rural tourism as an economic activity that is capable of alleviating poverty and stimulate the economy of Sri Lanka.

Key Words: Rural Tourism Development, Poverty Alleviation, Economic Development

ABSTRAK

PEMBANGUNAN PELANCONGAN LUAR BANDAR DAN PEMBASMIAN KEMISKINAN: DI SABARAGAMUWA, SRI LANKA

Kajian ini menyelidik pembangunan pelancongan luar bandar dan pembasmian kemiskinan di Sbarahamuwa, Sri Lanka dengan menggunakan pendekatan kaedah penyelidikan campuran. Data sekunder sejak tahun 1977 dikumpul daripada institusi-institusi yang bereputasi seperti Penguatkuasa Pembangunan Pelancongan Sri Lanka (Sri Lanka Tourism Authority), Bank Pusat Sri Lanka (Central Bank of Sri Lanka), Jabatan Banci dan Stastistik Sri Lanka (Department of Census and Statistics in Sri Lanka). Data primer dikumpul daripada daerah Sabaragamuwa di Sri Lanka melalui kerja lapangan secara pemerhatian, soal selidik dan temu bual. Data primer merangkumi data kualitatif dan data kuantitatif. Kaedah penyelidikan campuran serentak dan berurutan telah diaplikasikan untuk mengintegrasikan kedua-dua bentuk data. Pembolehubah bersandar dan pembolehubah bebas dikenalpasti berdasarkan teori saling-kebergantungan kitaran dan kumulatif. Sebanyak enam hipotesis diuji untuk tujuan kajian ini. Reka bentuk kajian adalah berdasarkan permasalahan kajian yang berkisar di antara dua dalil utama, iaitu (1) kejadian kemiskinan dapat diatasi melalui pembangunan pelancongan luar bandar di Sri Lanka; dan (2) pelancongan luar bandar dapat dibangunkan di Sri Lanka melalui system pelancongan sedia ada. Justeru, kajian ini menyelidik hubungan sedia ada di antara pembangunan pelancongan dan pembasmian kemiskinan, faktor-faktor utama, halangan-halangan yang berkemungkinan dan penentu-penentu spesifik yang berkaitan dengan pembangunan pelancongan luar bandar dan pembasmian kemiskinan di Sri Lanka berdasarkan objektif khusus dan pecahan persoalan penyelidikan. Kajian ini mendapati bahawa terdapat dua sebab utama, iaitu (1) kekurangan sumber di luar Bandar dan penggunaannya; dan (2) kekurangan penyertaan masyarakat luar bandar. Kajian ini juga mendapat faktor, musim, kesan peperangan, halangan dan kekurangan program bersesuaian juga telah menyumbang kepada kelemahan berkenaan. Kajian ini membuat kesimpulan bahawa system pelancongan sedia ada di Sri Lanka berhubung kait dengan Kelemahan Pendekatan Berdasarkan Komuniti atau 'Deficiency of Community Based Approach (DCBA)'. Selain itu, kajian ini juga mendapati bahawa wujudnya hubungan yang signifikan di antara komuniti dan aset. Ia bermakna kekurangan penyertaan komuniti telah menyebabkan kekurangan penggunaan sumber. Dengan kajian ini mencadangkan penggunaan Model Pembangunan Komuniti itu, Berdasarkan Aset atau 'Assets Based Community Development (ABCD) Model'. Kajian ini juga bahawa Model ABCD menawarkan jalan penyelesaian yang berguna antara pembangunan pelancongan luar bandar dan pembasmian kemiskinan di Sri Lanka. Hasil dapatan kajian, kesimpulan dan cadangan daripada kajian ini memanfaatkan penggubal dasar, penyelidik dan komuniti bagi menyediakan platform untuk advokasi pelancongan luar bandar sebagai suatu alat pembasmian kemiskinan yang berdaya maju di Sri Lanka. Hal ini penting untuk menyerlahkan peranan pelancongan luar bandar sebagai suatu aktiviti ekonomi yang berupaya membasmi kemiskinan dan memajukan ekonomi di Sri Lanka.

Kata Kunci: Pembangunan Pelancongan Luar Bandar, Pembasmian Kemiskinan, Pembangunan Ekonomi
